SITLA #ML 50784-NCM
DOGM #E410031 and #S0410036

Date: July 17, 2008

The above numbered SITLA lease was canceled for non-payment on June 20, 2008 and the Lessee no longer has any rights to enter the leased lands. The Lessee did not, to my understanding, proceed with any of the proposed mineral exploration or mining activities on the leased lands, or disturb the leased lands in any way. SITLA therefore has no objection to closing the DOGM case files in this matter. Thank you.
